Speaker: Angela T. Baldree, Law Librarian, Lake County Law Library Association

Description: While planning for their long awaited renovation project to be completed, the Lake County Law Library Board and Staff made it a priority to bring users back into the library. New technology such as wireless communication, laptops, and videoconferencing were introduced as ways of adapting to the changing nature of libraries.

Program B “The Commons Experience at Indiana University-Bloomington”

Mt. Rainier

Speaker: Carolyn Walters, Interim Executive Associate Dean of Libraries, Indiana University—Bloomington

Description: In 2003 Indiana University opened the Information Commons, a technology- and information-rich space designed for both individual and collaborative learning. A partnership of the Libraries and University Information Technology Services (UITS), the IC is a place that delivers the services and technology students have asked for in a facility open 24/7. Building on the popularity of the IC, the IC2 opened in 2005 for individual work and quiet study space. Planning has begun for the Research Commons, a one-stop destination for research support on the IUB campus that will encompass services from the Libraries, UITS, Advanced Research and Technology Institute, Office of the Vice President for Research, statistical consulting, and more.
