- “The latest in a distinguished line of books in the field of legal bibliography is the one by Miles Price and Harry Bitner. It is impossible for anyone who looks beyond the contents page not to be impressed by the tremendous amount of work which this book required and to be awed by the amount of learning disclosed by the authors. Rare indeed is the law librarian who will not find something new upon reading this book: all will keep it at hand for reference in answering questions that are not the most obvious.”¹
