

Strategic Planning Committee Report

"The Strategic Planning committee had a very productive year. Chris Graesser, incoming PLL Chair was the motivator to get this endeavor underway. The committee, Executive Board and selected SIS members reviewed the expired Strategic Plan, reassessed the direction of the SIS in light of the changing legal environment and adapted selections from the AALL Strategic Plan to meet our needs. A framework of four goal areas was crafted. The goal areas are leadership, member participation, education and advocacy. We are now completing formulation of objectives within the goal areas, actions to support the objectives and identification of the resources needed to implement them. The Plan is preceded by a Vision Statement which briefly describes the legal landscape and challenges in which private law librarians work."
